

SMARTER PACKAGING. LOWER COSTS.

WHY CHRGD KEEPS PACKAGING SIMPLE.

CHRGD uses simpler, more eco-conscious packaging to reduce waste, avoid unnecessary extras, and help keep product prices lower for customers.

01 ECO-CONSCIOUS MATERIALS

We use practical, lower-waste packaging choices wherever possible to reduce environmental impact without compromising product protection.

02 LESS PACKAGING. LESS WASTE.

We avoid excessive outer packaging, oversized presentation boxes and unnecessary extras. Simpler packaging means less waste and a cleaner, more efficient process.

03 SOY-BASED INKS

Where possible, we use soy-based inks and more responsible print methods. These choices support a more considered approach to packaging and production.

04 SAVING YOU MONEY

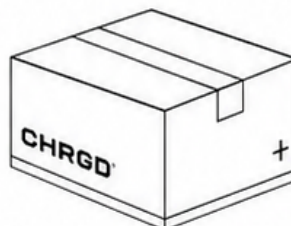

By keeping packaging functional and efficient, we reduce avoidable costs. That helps us keep CHRGD products more affordable for our customers.

“

**WE WOULD RATHER INVEST IN
THE PRODUCT THAN INFLATE
THE PACKAGING.**

THE CHRGD APPROACH

- + More eco-conscious
- + More cost-efficient
- + Easier to understand

FUNCTIONAL.
EFFICIENT.
PURPOSEFUL.
